Records words, ideas and information.

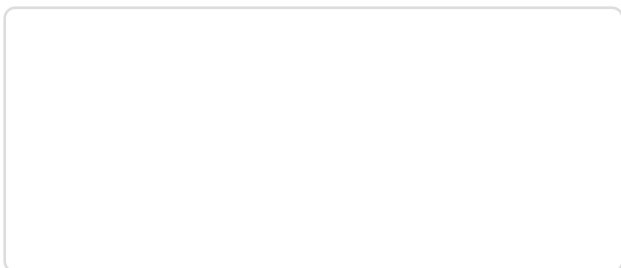

Draw an example

03

Paper

Gives us a light surface for writing and drawing.

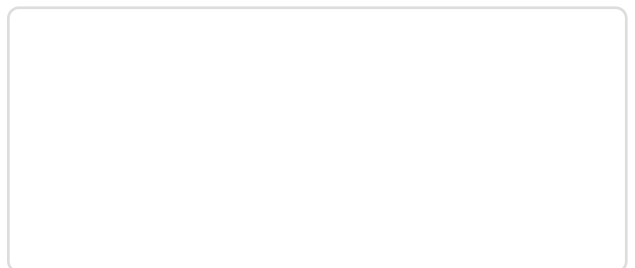

Draw an example

04

Compass

Helps us find directions using a magnetic needle.

Draw an example

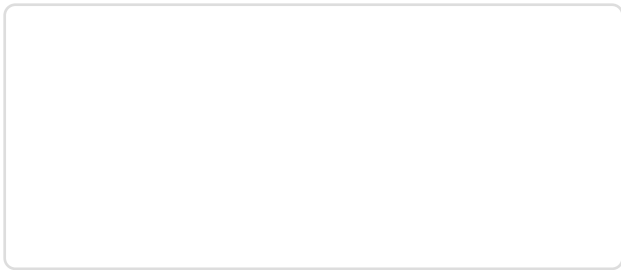

Inventions around us

Cut out the cards. Read, discuss and draw an example.

05

Lever

Makes lifting or moving a load easier.

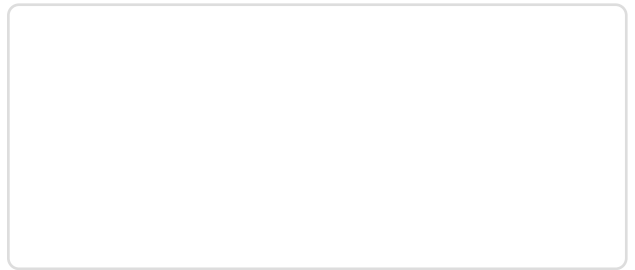

Draw an example

06

Pulley

Uses a wheel and rope to lift or move loads.

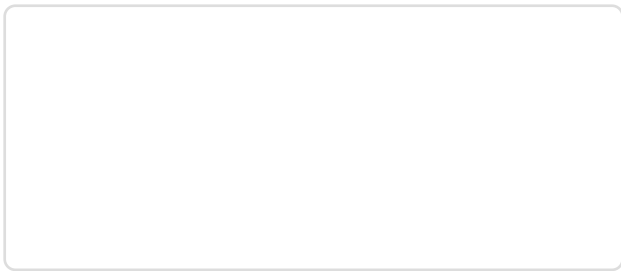

Draw an example

07

Printing press

Produces many copies of written pages.

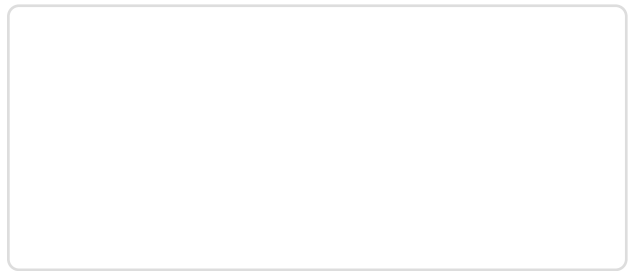

Draw an example

08

Clock

Measures time.

Draw an example

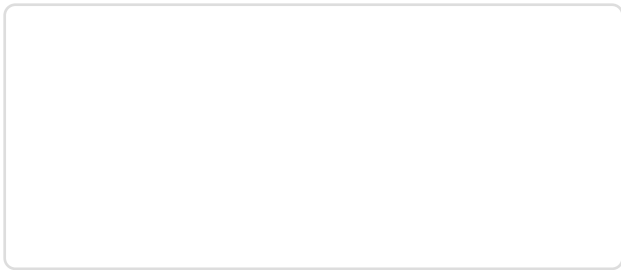

Inventions around us

Cut out the cards. Read, discuss and draw an example.

09

Thermometer

Measures temperature.

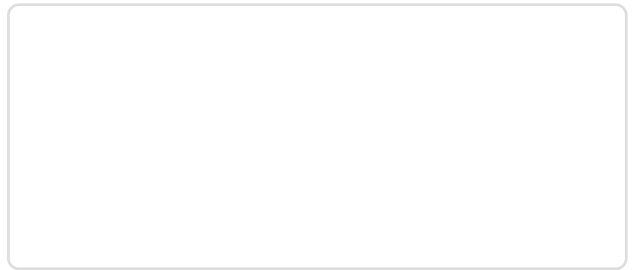

Draw an example

10

Telescope

Helps us view distant objects.

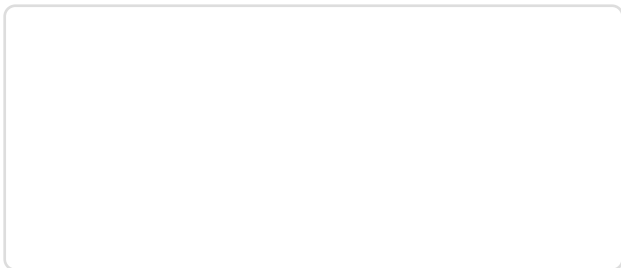

Draw an example

11

Microscope

Helps us see things too small for our eyes.

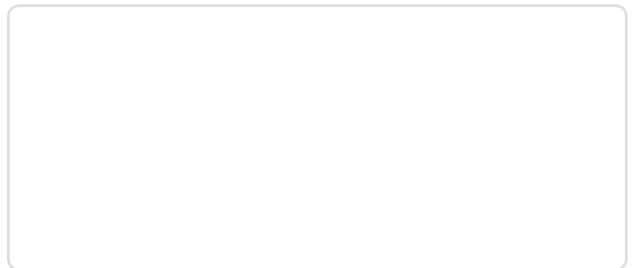

Draw an example

12

Battery

Supplies electrical energy.

Draw an example

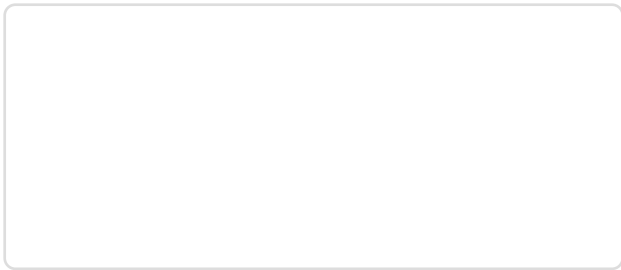

Inventions around us

Cut out the cards. Read, discuss and draw an example.

13

Steam engine

Turns steam energy into mechanical movement.

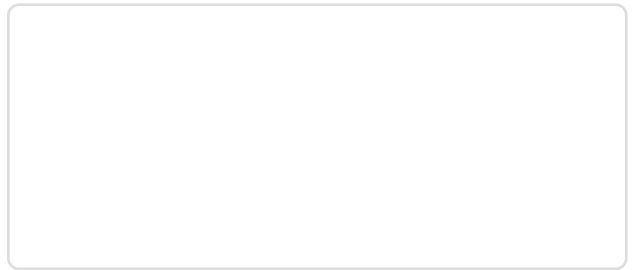

Draw an example

14

Bicycle

Carries a rider using pedals and two wheels.

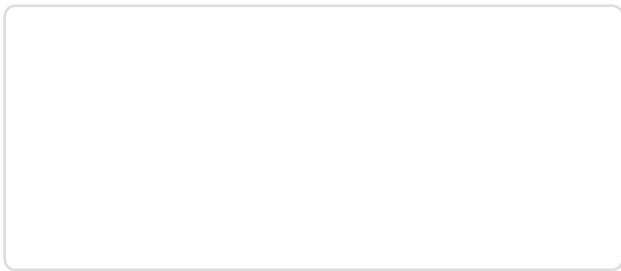

Draw an example

15

Braille

Uses raised dots that people can read by touch.

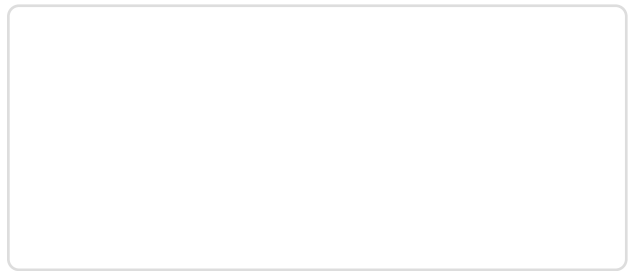

Draw an example

16

Camera

Records pictures.

Draw an example

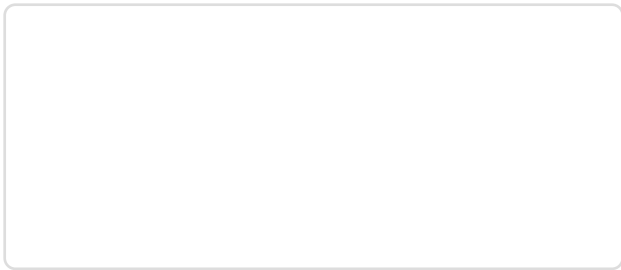

Inventions around us

Cut out the cards. Read, discuss and draw an example.

17

Telegraph

Sends messages using electrical signals.

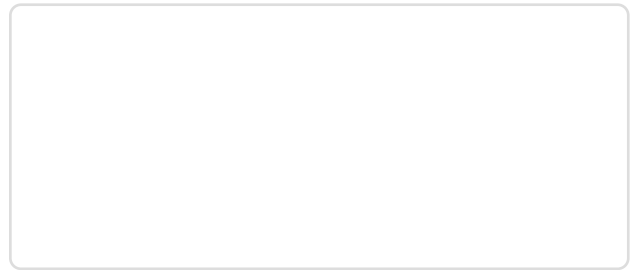

Draw an example

18

Telephone

Carries voices between people far apart.

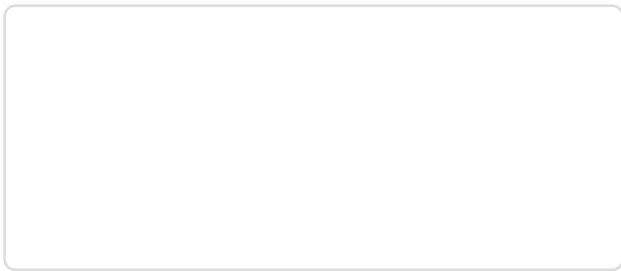

Draw an example

19

Phonograph

Records and plays sound.

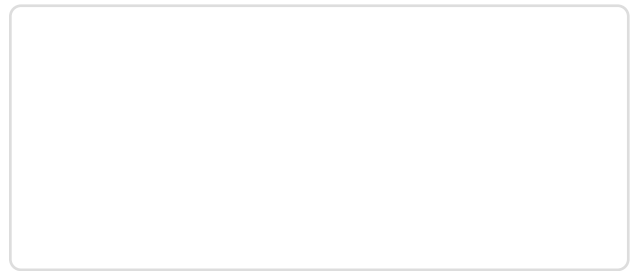

Draw an example

20

Electric lamp

Uses electricity to make light.

Draw an example

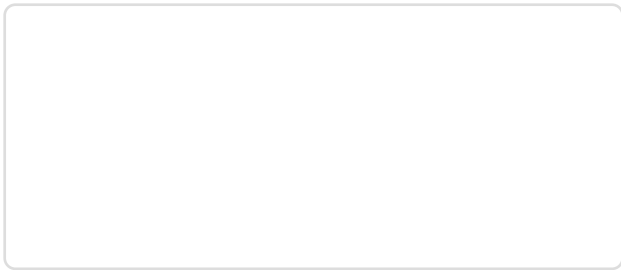

Inventions around us

Cut out the cards. Read, discuss and draw an example.

21

Electric motor

Turns electrical energy into movement.

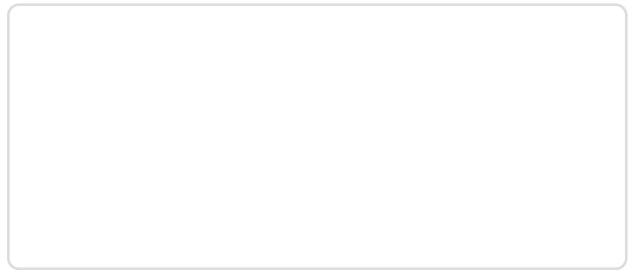

Draw an example

22

Aeroplane

Carries people and goods through the air.

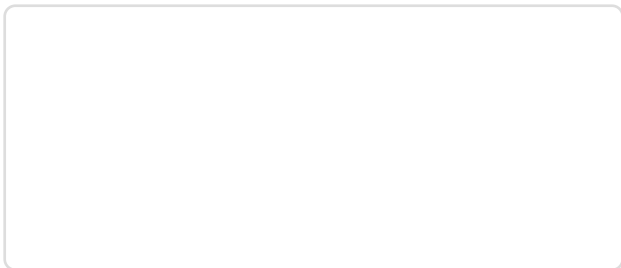

Draw an example

23

Refrigerator

Keeps food cool.

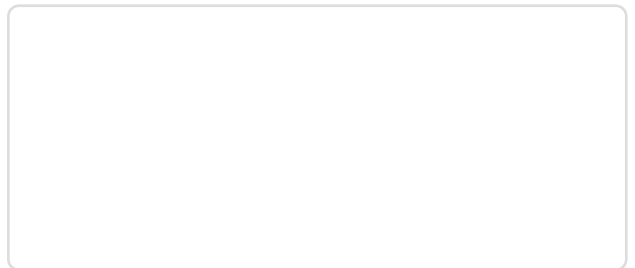

Draw an example

24

Radio

Sends sound using radio waves.

Draw an example

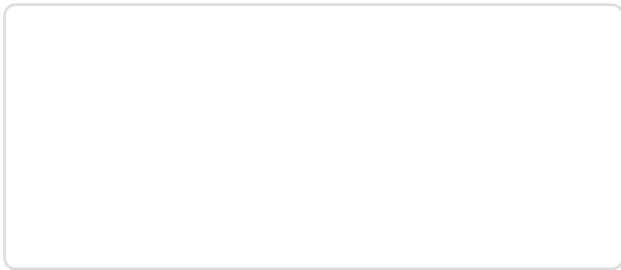

Inventions around us

Cut out the cards. Read, discuss and draw an example.

25

Television

Receives moving pictures and sound.

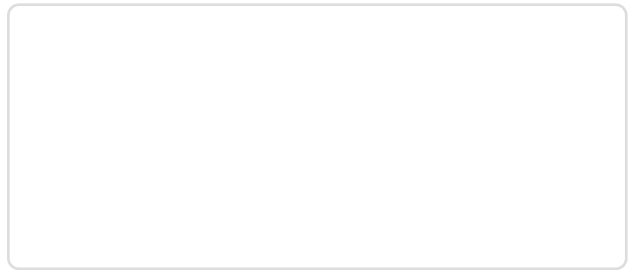

Draw an example

26

Washing machine

Washes clothes.

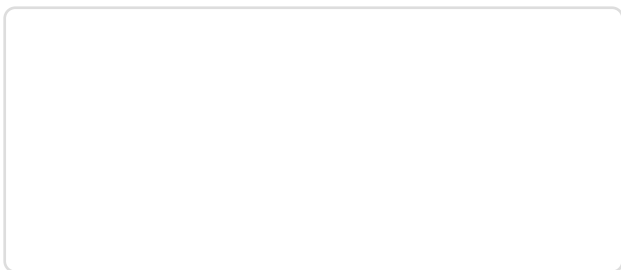

Draw an example

27

Computer

Processes and stores information.

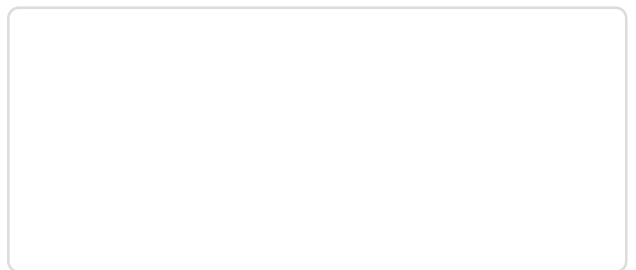

Draw an example

28

Solar panel

Converts sunlight into electrical energy.

Draw an example

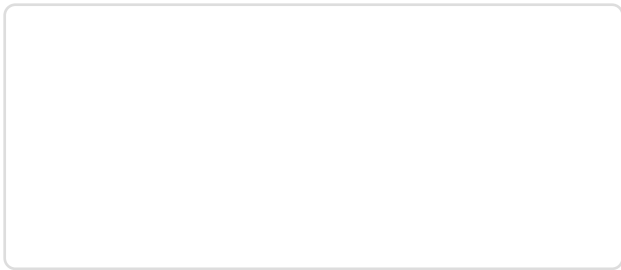

Inventions around us

Cut out the cards. Read, discuss and draw an example.

29

Satellite

Can help with communication, weather or navigation.

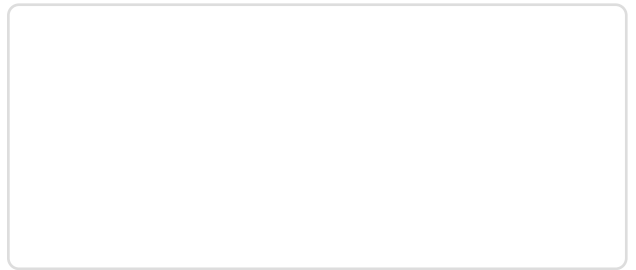

Draw an example

30

World Wide Web

Links information pages that we can visit online.

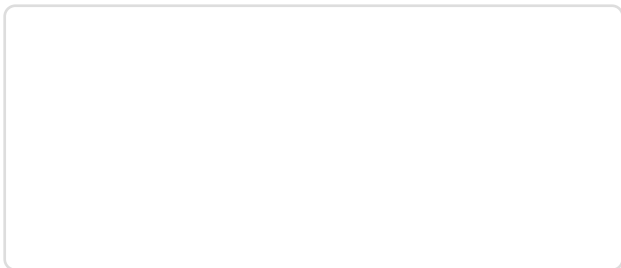

Draw an example

31

3D printer

Builds objects layer by layer.

Draw an example
